## Limited Dental Warranty

Our practice is proud of the dentistry that we provide for you and your family. Our goal is to not just correct any dental problems you may have, but to show you how to prevent dental disease in the future, saving you both time and unnecessary expense.

We are confident of the durability of our treatment as prescribed for you. The primary key to your long term success is spending a few minutes a day on your home care: brushing, flossing, and use of any prescribed products or fluoride. The second key to success is regular professional examinations, cleanings, x-rays and fluoride treatment at 2, 3, 4 or 6 month intervals depending on your condition.

We will stand by our work for a reasonable amount of time for each particular dental service, provided

1. that the above mentioned care is performed
2. that it was the recommended treatment at the time of service (ie If you opted for a lesser treatment than what was recommend, such as a large filling instead of a crown, that would not be warranted.)
3. that if recommended, a night guard was made and worn

This warranty does not cover accidents that cause damage to teeth or dental prostheses. Failure to return for regular visits with our office voids all warranties. Keeping your appointments helps us help you maintain your teeth for a lifetime.
